PRELIMINARY AMENDMENT

Assistant Commissioner of Patents Washington, D.C. 20231

Sir:

Prior to examination on the merits, please amend this application as follows:

IN THE CLAIMS:

Please cancel claims 21-27 without prejudice. Please amend claims 4 and 10 as follows:

- 4. (Amended) The data structure according to claim 1, further comprising a bibliography table containing a corresponding entry for each entry in said incident table linked by said identification; said bibliography table containing bibliographic information for the incident corresponding to said identification.
- 10. (Amended) A method for performing a search in a laser accident and incident registry database comprising:

receiving a search request,

displaying a radio button interface listing categories,

receiving a selection of a category listed on the radio button interface,

displaying an interface having multiple fields for accepting search criteria,

receiving search criteria,

suggesting a query name,

sending the search criteria to another component,

receiving a list of matches that satisfy the search criteria from the other component, and

displaying the list; and

wherein the categories include an identifier, overview and analysis, subject, clinical evaluation, visual function exam, laser system, treatments, safety, exposure, and bibliography.

Please add new claims 36-42 as follows:

- 36. (New) The method of claim 15, flurther comprising: receiving a request to provide a synopsis for the list contents, detecting a pointer on an item among the list contents, and displaying a synopsis associated with the item.
- 37. (New) The method of claim 17, further comprising: receiving a request to provide a synopsis for the list contents, detecting a pointer on an item among the list contents, and displaying a synopsis associated with the item.
- (New) The method of claim 15, further comprising:
 receiving a search request,
 displaying a radio button interface listing categories,
 receiving a selection of a category listed on the radio button interface,

displaying an interface having multiple fields for accepting search criteria, receiving search criteria,

suggesting a query name,

sending the search criteria to another component,

receiving a list of matches that satisfy the search criteria from the other component, and

displaying the list.

- 39. (New) The method according to claim 38, further comprising receiving a save instruction and saving the query for later retrieval.
- 40. (New) The method according to claim 39, further comprising expanding the list to include a additional levels of information when an item is selected.
- 41. (New) A computer-readable medium containing a data structure for storing laser accident and incident information comprising:

an incident table containing an entry for each of a plurality of incidents, each entry carrying an identification.

a clinical evaluation table containing at least one entry for at least one entry in said incident table linked by said identification, said clinical evaluation table containing clinical evaluation information, and

table linked by said identification, said laser table containing a laser identification.

42. (New) The data structure according to claim 41, wherein said incident table includes a summary section and an exposure section.

REMARKS

This Preliminary Amendment is being filed concurrently with a response to the Notice of Missing Parts.

Attached hereto is a marked-up version of the changes made to claims 4 and 10 by the current Preliminary Amendment. The attached page is captioned "Version with markings to show changes made." New claims 36-42 have not been included on the attached page, because the claims are new.

Claim 4 was amended to insert a missing "," in the preamble of that claim. Claim 10 was amended to more completely claim an aspect of the invention and to change both occurrences of "radial" to --radio--.

Applicants respectfully submit that all of the claims of this application are patentable. Examination on the merits is awaited.

Respectfully submitted, CAHN & SAMUELS, L.L.P.
